Located just 15 km from Batumi, Mtirala National Park is renowned for its unique and exceptional natural environment, recognized internationally. Notably, in 2020, the park received the prestigious World Travel Awards.

Mtirala National Park has always attracted the attention of visitors and nature enthusiasts. Its unique Colchic forests and rare natural features led to its designation as a UNESCO World Natural Heritage Site in 2021. The park is also part of the Emerald Network.

Mtirala is considered one of the wettest places in Europe, a fact reflected in its name. Spanning the municipalities of Kobuleti, Khelvachauri, and Keda, the park offers visitors one- and two-day hiking trails. Specially designated areas allow for picnics by campfires, providing an unforgettable outdoor experience. For those seeking adventure, the park also offers rope parks and zipline attractions.

The forested and shrub-covered park is home to rich and diverse vegetation, including rare and endangered plant species. Among its botanical treasures is epigaea , a plant found only in Georgia and Turkey. The park also hosts abundant wildlife, including mammals, birds, and reptiles listed in “Red List” of Georgia.

MTIRALA NATIONAL PARK

ECOTOURISM

Hiking through wild nature, flying through the sky on a zipline, and testing your skills in rope park wooden labyrinths — Mtirala National Park is the perfect place to create unforgettable memories. If you are vacationing in Adjara, be sure to visit Mtirala National Park, enjoy its diverse services, spend your time outdoors, explore the culture and traditions of Adjara, and recharge your energy.

Cold rivers, moss-covered massive rocks, endless trees, waist-high ferns, lush greenery all around, and refreshing mist — Mtirala National Park promises an emotional and unforgettable adventure. If you have ever dreamed of walking through a jungle, your dream can come true here.

At any time of the year, visitors to Mtirala National Park can enjoy:

- Hiking tours
- Scientific tours
- Eco-educational tours
- Zipline adventures
- Rope park
- Birdwatching

The park features three main tourist trails:

- Tsablnara (Chestnut Wood) Trail – 7 km long, easy hiking trail
- Tsivtskaro (Ice-Cold Stream) Trail – 15 km long, moderate difficulty
- Two Mountain Trails – 33.5 km long, moderate difficulty

It is possible to spend the night in four locations within the park, including tourist shelters and specially arranged camping spots.

BIODIVERSITY

Mtirala National Park stands out for its unique nature, with the territory almost entirely covered by forests and shrubs. The forest hiking trails wind under massive moss-covered trees and past green mossy rocks. The dense forest expresses its beauty in every color — hills alternate with steep slopes beneath the green canopy.

The wild nature of Mtirala National Park is adorned with beautiful waterfalls, lakes, and rivers, while the combination of unique Colchic forests, pristine beech groves, and rare plant species leaves unforgettable impressions.

The deciduous forests provide excellent habitats for ungulates, predators, and birds. Here, visitors may encounter tracks of brown bears, foxes, martens, badgers, lynxes, and other wildlife.
